

NOTICE TO ALL CONTRACTORS

The City of Dade City requires full power on all buildings in order for our inspectors to conduct a final inspection and the issuance of a Certificate of Occupancy "C.O."

Prior to the final inspection you will need to fill out a form requesting a **PRE-METER** inspection. Upon approval, we will issue a power release to Tampa Electric.

Unless prior arrangements are made with the Building Official, you will have 30 days from the day the Pre-meter inspection passes to obtain a final inspection and have a Certificate of Occupancy issued.

Occupancy of the building without the final inspection and issuance of the C.O. will result in a citation and the denial of future building permits.
